

Web Developer

About myo

myo is a Berlin-based startup, aiming at revolutionizing the communication in the German care market. The myo smartphone app allows caregivers to share photos, videos and more relevant content directly with the families of the seniors in the nursing homes. Thereby, for the first time ever, it is now possible for the relatives to continuously take part in the life of their loved ones.

Role

You will be an essential member of the myo team working alongside a small in-house development team, and with remote developers. You will also be in charge of the product development improving our roadmap and understanding consumer needs.

Responsibilities

Day-to-day, you shall be engineering solutions for the existing backend and frontend application, this includes writing unit and integration tests. You are invited/expected to communicate your thoughts, ideas, opinions clearly, in an environment that is both open and respectful. You will be given time to learn, and you are encouraged to do so.

Relevant Skills / Experience

- 2+ years industry experience as a Web Developer
- Java
- Spring
- Angular
- Microservices
- Databases - mainly PostgresDB
- Version control with Git

Bonus Knowledge / Experience

Additionally, we would like for you to be involved in other aspects of development too - we have mobile applications that are dependent upon current projects - your work and ideas

- Docker
- Kotlin
- Android / iOS knowledge
- Continuous Integration / Automated deployment with Jenkins
